

THINKPAD® STACK

A REVOLUTIONARY TECHNOLOGY FOR MOBILE.
DO MORE WITH LESS.

ThinkPad® Stack is a versatile innovation that connects four popular accessories into one. A Wireless Router, A Bluetooth® Speaker, an External Hard Drive and a Power Bank, all designed into stack form factor which helps you make the most efficient use of space. Its modular design gives you the flexibility of bringing only the ones you need. Multiple combinations of options make it more than what you see. By utilizing the Stack Assistant Software Application, users can quickly and easily setup, manage and share resources with multiple devices. No matter if you are working in a café, hotel or simply in transit, you will always enjoy the matching office support on the go.

WHY
BUY THE
THINKPAD®
STACK?

1

MOBILITY REDEFINED

Four popular accessories support your traveling needs. The compact stack form factor helps you make efficient use of space.

2

ULTIMATE FLEXIBILITY

The modular design allows you to enjoy the ultimate freedom of bringing only the ones you need.

3

MIX & MATCH FOR MORE

Stack up to 5 modules regardless of the order. An effortless mix and match helps you do more with less.

4

EASY AND CONVENIENT

One micro USB cable powers up the whole stack at once. It optimizes the mobile experience by simply turning clutter into convenience.
