

ActivPanel[®]
Elements™ Series

Designed by teachers.
Developed by Promethean.
Loved by education.

Promethean[®]

For the  of Learning

For the love of... education

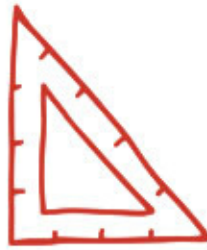

Teaching time is pressured. Workload is increasing. Technology can be a challenge. And against the backdrop of this, budgets are stretched, which means any investment needs to make life easier... not harder.

This is where the ActivPanel Elements Series comes in. We've drawn on our 20+ years' experience of developing technologies which enhance the teaching and learning environment to underpin a design philosophy which focuses on user feedback and market knowledge - enabling us to deliver an advanced and flexible classroom solution which directly addresses the needs of teachers, school leaders and ICT professionals.

We've focused on all the little things to bring you an ActivPanel that will make a big difference to using technology in school.

Designed for the classroom

Technologically intelligent

A truly 'out of the box' solution, the ActivPanel Elements Series is 'plug and play' as standard, making it easier than ever to set up and manage classroom technology.

Increased engagement for students at all levels is delivered via the powerful in-built Android 8 device providing access to intuitive pre-loaded apps and content - plus additional customisable options greatly simplify IT management.

Intuitive and ergonomic

Thoughtfully designed for the classroom environment, the ActivPanel Elements Series delivers an intuitive user experience via the unified menu - making it simple, quick and easy to navigate to apps, content and resources by mapping the interface and icons to the teacher's natural eyeline and ergonomic usage.

Considering the teaching experience in the context of front-of-class instruction, the ergonomically angled control console* enables teachers to swiftly and intuitively navigate directly to the unified menu, volume, source selection and more...

The ActivPanel Elements Series

The only interactive flat panel designed
by teachers, developed by Promethean...
and loved by education.

*Excludes ActivPanel Nickel

Natural writing experience

Understanding the importance of the writing experience, we developed Vellum Writing Technology to deliver a natural and precise writing experience. Writing on the ActivPanel is as natural as putting pen to paper.

Learning in the moment

Support learning in the moment with Instant Whiteboarding. Launch this app without the need to connect to a computer and deliver interactive and engaging lessons on an infinite canvas.

Apps at your fingertips

Introducing the Promethean Locker - the go-to place for all your Android apps. From the pre-loaded range of essential interactive apps to the ability to download a wide range of educational apps from the Promethean Store... the Promethean Locker saves time and makes teaching with tech easier by providing a single destination to access, launch and manage apps.

Low running costs

Energy Star certified solutions, and removal of the need to replace projector bulbs with older projection technologies, make the ActivPanel Elements Series a cost-effective technology choice in the longer term - helping investments to go further even when budgets are stretched.

Designed for engagement

Unified Menu

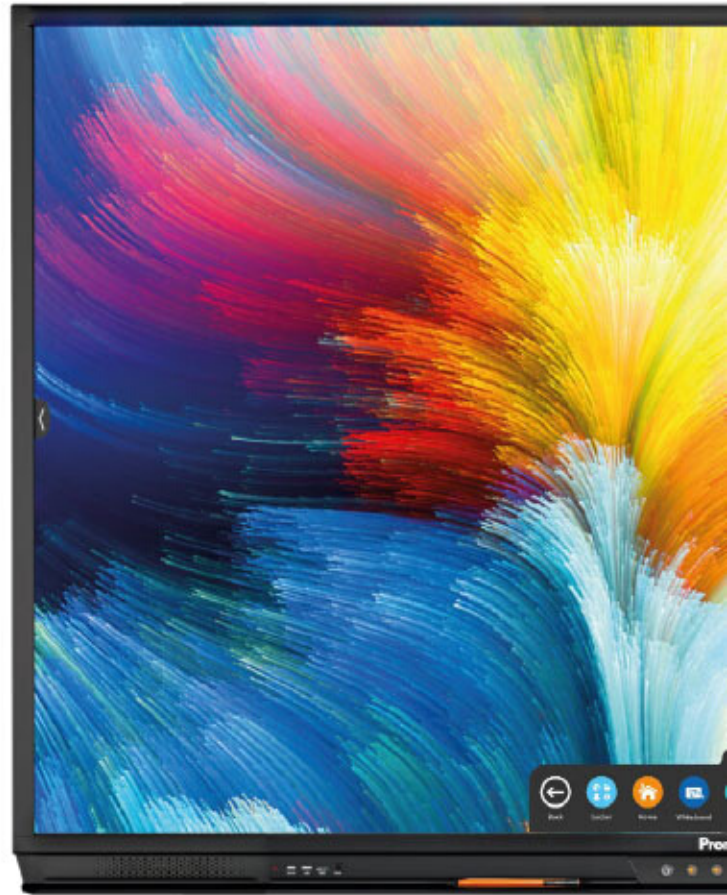

The ActivPanel's new unified menu places all of the most commonly-used tools right at teachers' fingertips. Always accessible, teachers can move seamlessly between content and resources.

Enhanced Interactivity

Teachers and students can collaborate with up to 20 simultaneous touch points including pen, touch, and palm erase. Intelligent palm rejection technology recognises when a user is simply steadying themselves to write confidently on the screen.

Device Mirroring

ActivPanel's controlled, multi-device mirroring lets teachers and students collaborate from anywhere in the classroom by connecting hand-held devices.

Designed for teaching

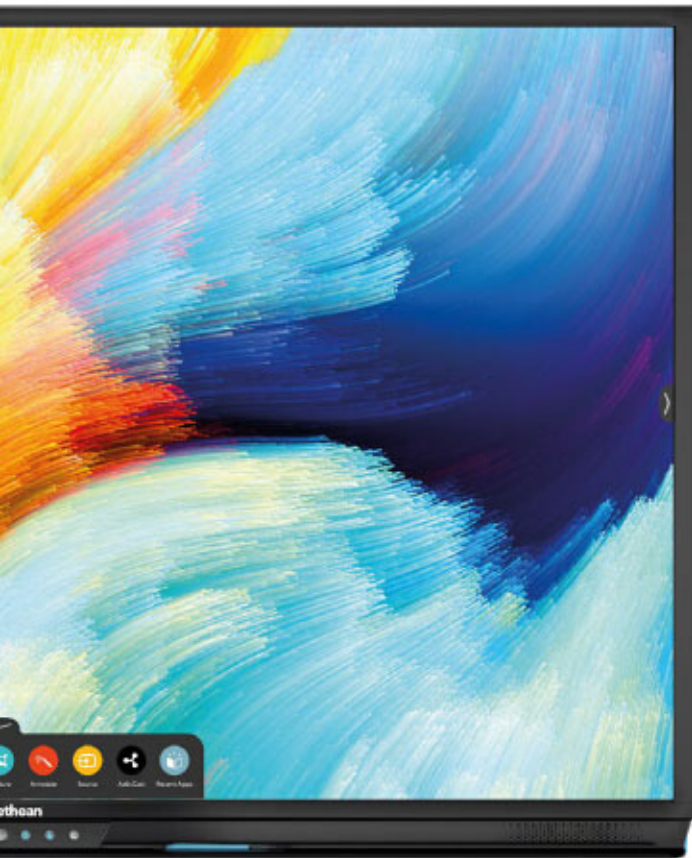

Promethean's longstanding education pedigree has enabled us to develop technology over the past 20 years which specifically meets the needs of education. The ActivPanel Elements Series is supplied with a choice of two award-winning software solutions.

Deliver interactive lessons using Promethean's educational software - supplied free as standard with the ActivPanel, so no ongoing subscription costs or hidden charges.

The next-generation, cloud-based lesson-delivery software that provides advanced classroom collaboration tools and interactive resources with anytime, anywhere access.

Dual Proximity Sensors

The ActivPanel Titanium automatically wakes up when someone enters the room. Teachers can quickly get started with the tap of the finger anywhere on the panel.

Room-filling Sound

Students who hear better, learn better. The ActivPanel's bass enhanced, front-facing speakers fill the classroom with full range audio and superior fidelity.

Wi-Fi® and Bluetooth® for Enhanced Connectivity*

Provides the flexibility required for diverse networking needs and offers more classroom mobility. Bluetooth allows for easy connection to accessories and STEAM-based hardware, such as robots and lab sensors.

All-in-One and Connected

The ActivPanel Titanium features the speed, security and reliability of the Android 8 operating system on board, with 4 GB of RAM, 64 GB of storage, and Gigabit LAN integration.

*Specifications vary by model, not all features are available on all models, please refer to individual specification sheets for full details.

Designed for flexibility

Understanding each school is unique, Promethean offers a range of additional computing options that enable you to customise the ActivPanel Elements Series to suit your individual school needs and environment.

Configure ActivPanel Elements to suit the individual networking infrastructure of your school...introduce Google Chromeboxes, ActivConnect OPS-G or ActivConnect OPS-M to create an ICT estate that aligns with your own strategy.

Need to mobilise your edtech? The ActivPanel Elements Series can be combined with a choice of versatile mounting solutions that gives you the freedom to move the teaching technology to where it's needed... and secure it safely and securely for lesson delivery.

Designed for schools

Designed and developed in collaboration with schools, the ActivPanel Elements Series is available in a choice of systems - allowing flexibility according to the school environment, budget and priorities:

ActivPanel[®] Titanium

Our most powerful, teacher-friendly classroom solution.

ActivPanel[®] Nickel

Our essential interactive display for teaching and learning.
